TECHNICAL PROPERTIES

Product	Material	Hardness	Density	Format	Thickness	Applications	Properties
EVAPROTEC	EVA HQ	18	0,08g/cm ³	2400/1200	1 to 46mm	cushioning and covering sheets for insoles, padding	soft padding
EVAPROTEC SAN	EVA HQ	18	0,08g/cm ³	2400/1200	1 to 46mm	prevents bacteria from developing, laboratory-tested	soft padding
CELLON	EVA HQ	22	0,10g/cm ³	2300/1150	1 to 44mm	padding and covering sheets, resitant, comfortable	padding
CELLON SAN	EVA HQ	22	0,10g/cm ³	2300/1150	1 to 44mm	prevents bacteria from developing, laboratory-tested	padding
EVALASTIK 25	EVA HQ	25	0,23g/cm ³	2200/1100	1 to 44mm	cushionong, covering, intermediate sheets, resistant	elastic and shock-absorbing
EVALASTIK 30	EVA HQ	30	0,20g/cm ³	2100/1050	1 to 42mm	cushioning, covering, paddings sheets, schock-absorbing	elastic and shock-absorbing
EVALASTIK 35	EVA HQ	35	0,22g/cm ³	2000/1000	1 to 42mm	adapted for sport activities, cushioning, covering	elastic and shock-absorbing
EVALASTIK 40	EVA HQ	40	0,20g/cm ³	1950/975	1 to 40mm	cushioning, covering, paddings sheets, schock-absorbing	stabilizing and flexible
EVALASTIK 45	EVA HQ	45	0,28g/cm ³	1950/975	1 to 40mm	lift sheets for insoles and shoes, recovery, sport	stabilizing and flexible
EVALASTIK 52	EVA HQ	52	0,26g/cm ³	1800/900	1 to 40mm	great thermoforming stability, lift sheets insoles/shoes	stabilizing
EVALASTIK 60	EVA HQ	60	0,35g/cm ³	1700/850	1 to 38mm	rigid material stable, for sport/city, great thermoforming	stabilizing
EVALASTIK 68	EVA HQ	68	0,37g/cm ³	1600/800	1 to 38mm	lift sheets for insoles and shoes, non deformable	stabilizing and dimensionally stable

evalastik System

Premium EVA

High rebound elasticity and quality

CERTIFIED QUALITY

evalastik is a range of enriched, very high quality EVA foams made in France, specially developed and tested for the orthopaedic, podiatric and shoe engineering market.

evalastik is tested and certified by leading laboratories in particular for cutaneous contact and for chemical composition.

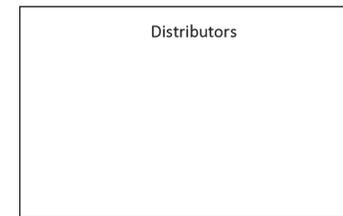

evalastik is available from 18 to 68 shA and from 0.08 to 0.37 g/cm³.

evalastik System
Premium EVA

ultracel System
Topcover Polymers

primaluxe System
Premium Cushioning Cover

evaflex System
EVA Milling Blocks & Strips

primalux System
Thermoforming Lifting Sheets

thermoflex System
EVA Milling Blocks & Strips

primacad System
EVA Milling Blocks & Strips

thermocork System
Enriched EVA with Natural Cork
